REFERENCES

Momo Philip Herré

"Director of Project Management at Langer and Friends : Ismet proved to be a reliable employee and hard worker with solid problem solving and technical skills throughout his employment. I was particularly impressed with Ismet's communication skills. He handled criticism well, pointed out problems in projects in a timely manner, and made goal-oriented suggestions for improvement. Ismet takes his work very seriously and is passionate about it. He is an ambitious developer and is willing to work overtime in difficult situations. During his time with our company, he has made an effort to strengthen communication and team spirit within the development department. Overall, Ismet is ambitious, hard-working and a super team-player. I strongly recommend Ismet and have no doubt that with the right guidance and training he can excel in a higher development position."

Ezgi Zümrüt Ulaş

"Customer Management Application Development Manager at YKT: Ismet Seyhan worked as a Junior Java Developer at Yapı Kredi, one of Turkey's leading technology banks, from 01.05.2021 to 23.10.2021. I was his supervisor as the Customer Management Application Development Manager. Ismet successfully fulfilled his responsibilities in an Agile team of 9 people following the Scrum methodology. His primary role involved working on new projects and maintenance tasks related to customer management, CRM, customer creation/update/deletion, and contact information within our banking application. He worked in a development environment that included Oracle DB in a multilayered architecture, Spring Framework for the backend, and an HTML5-based frontend. Ismet demonstrated proficiency in PL/SQL, Hibernate, Java, Spring, Maven, SOAP, HTML, and JavaScript. He also effectively managed job/defect management and CI/CDI processes using Atlassian products. Ismet quickly adapted to feedback and delivered high-quality code within tight deadlines. He seamlessly integrated into the team, producing exceptional and comprehensible outputs. I have full confidence that he will easily adapt to new teams and projects."
